

## How to measure your size

1. Print this page on an A4 sheet and check that it is to scale using the scaling tool at the bottom left.
2. Fold along the dotted line and place the page on the floor with fold against the wall. While standing barefoot, place your heel against the fold touching the wall.
3. Make sure you keep your foot flat. Draw a line at the tip of your big toe with a pencil.
4. If you are between sizes, we advise that you order the next size up.

### Tips :

- Measure both feet. Some people have one foot slightly larger than the other. Choose the size that fits the largest of the two.
- Measure your feet in the afternoon, when feet tend to be at their largest.
